

SPRINT DOCUMENTATION

Long term goal: Highly intuitive and user friendly application.

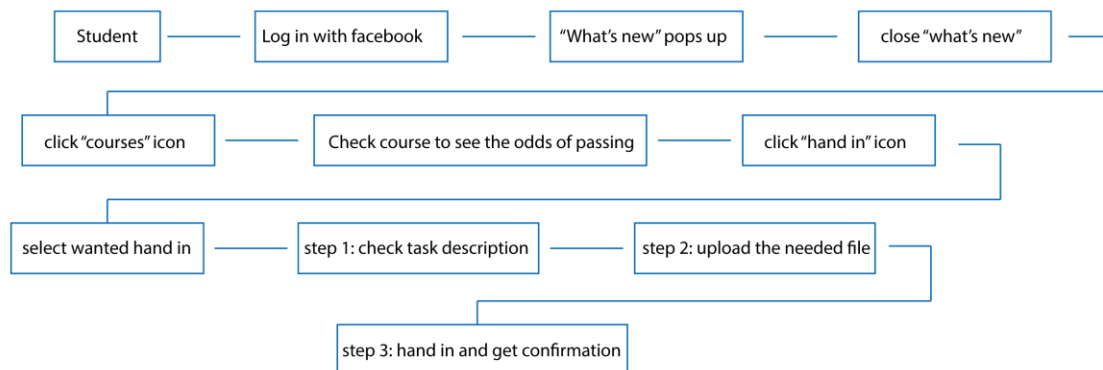

Features supporting the long term goal:

- Offer the option to view/continue from where you left off
- Organization through geometric shapes containing images of the content
- Previously downloaded content can be accessed on the offline mode
- Buttons size support tapping
- 4/5 elements in the menu that are icons
- Greet the users with “what’s new”
- Important information is summarized on the top of the home page and it is presented through automatically moving slides
- Offer possibility to register with Facebook and Google
- Courses show progress in the circle line surrounding the circle image of the topic
- Hand in through steps

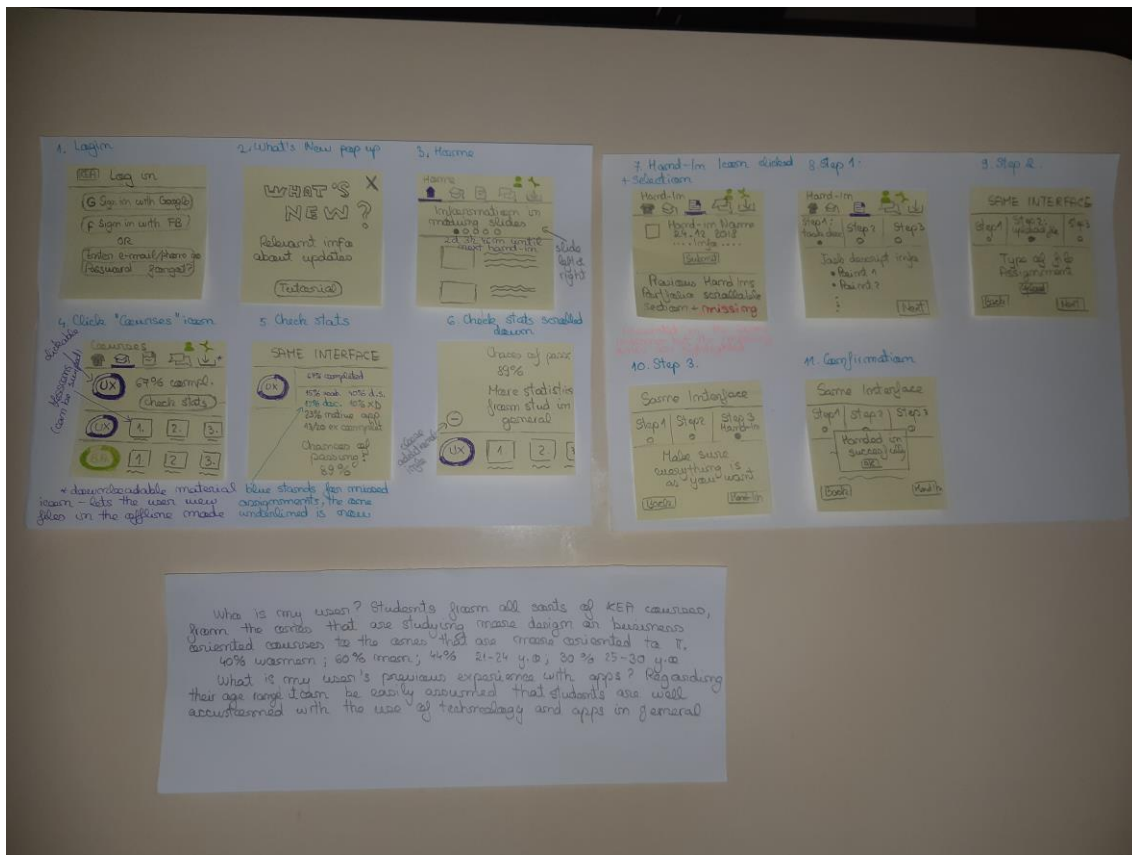

Intuitivity is supported by:

- Respecting physics principles
- Simplicity
- Learnable and memorable
- Using the same patterns
